EDUCATION

Pune Institute of Computer Technology **June 2025**
Bachelor in Computer Engineering *Current GPA - 9.17/10*

TECHNICAL SKILLS

Programming Languages: C++, Python, Java, HTML5, CSS3, JavaScript
Libraries and Frameworks: React.js, Next.js, Node.js, Express.js, Spring Framework with Spring Boot, Flask, Streamlit, TensorFlow
Databases: MongoDB, MySQL, Firebase(Real-time Database)
Tools: Gradle, Maven, Material-UI, Bootstrap, Tailwind CSS, Figma, GitHub, Firebase, Vercel, Render.com
Machine Learning/AI: LLM (Large Language Models), TensorFlow, Keras, NumPy, Pandas

WORK EXPERIENCE

Product Developer Intern ***— React.js, Node.js, Express.js, MySQL, AWS EC2, AWS S3***
Newton's Apple *April 2024 - July 2024*

- Engineered an advanced email system using **SMTP** and **Amazon SES**, featuring device-specific tracking for **opens/clicks**, while implementing **encrypted** login details for enhanced security.Spearheaded the development of **dynamic APIs** for user registration, profile updates, and email template management, optimizing performance through a **TTL server** and ensuring airtight data protection.

Nodejs Developer Intern ***— Next.js, Node.js, Express.js, Firestore, Firebase, Msg91, Github***
Downpour Consultancy Services *June 2024 - July 2024*

- **Spearheaded** the development of a **scalable backend architecture** with **Firestore** for data management and **Razorpay** for payments. Delivered high-performance APIs for **user verification (Msg91, Firebase)**, dynamic event and organization management, and CRUD operations, driving a **30% system performance boost.**

Web Developer ***— Next.js, Material-UI, Tailwind CSS, Node.js, Express.js, MongoDB***
GameDevUtopia (Game Development Club at PICT) *January 2024 - April 2024*

- **Engineered** a **fully animated, interactive platform** for the club's **official website**, combining **sleek design** with robust functionality. Integrated features like a **games hub** for playing, downloading, and sharing member-created games, a "Let's Talk" page for sponsorships and business inquiries, and an event hosting platform—all **boosting user engagement and visibility by 40%.**

PROJECTS

- **Personalized Mental Health Analyser using Federated Machine Learning** — *Tensorflow, Keras, Numpy, Pandas, HTML, CSS, Javascript, Flask,Python, Gemini API, JSON*
  — **Engineered a RESTful API** with JSON integration to enhance the Mental Health System, achieving a **50% reduction in response time** for personalized assessments using **Flask**, **TensorFlow**, and **Gemini API**. GitHub
- **AI-Powered ATS Tracker and Resume Optimization Platform** - *Python, Streamlit, Google Generative AI, pdf2image, PIL*
  — Built an ATS platform with **Google Generative AI** for smart resume analysis, featuring **Skill Gap Analysis**, **Job Fit Prediction**, and real-time feedback. The **Streamlit** dashboard processes over **1,500 data points**, improving hiring decisions, with seamless PDF handling via **pdf2image** and **PIL**. GitHub
- **BuzzStream - Social Microblogging and Live Streaming Platform** - *React.js, Material-UI, Node.js, Express.js, Firebase, MongoDB, Render.com*
  —Developed an innovative social media platform featuring **real-time user authentication** and profile updates with **Firebase**, dynamic content posting (images, videos, messages), and **live weather-based animations**. Implemented a **video conferencing system** supporting 100+ users, and a **subscription model** with **Razorpay** for premium features. Scaled the platform globally using **MongoDB** for seamless data management, boosting user engagement and interaction.GitHub

ACHIEVEMENTS AND EXTRACURRICULAR ACTIVITIES

- **Semi-Finalist in All India Women Hackathon** : *A Technical hackathon hosted by Persistent in August 2023*
- Ranked in the top 20 in the **Innovate and Inspire Hackathon (Coding Round)** by K.Ramakrishnan College of Engineering in June 2024.
- **Website Development Head** at GameDevUtopia Club - January 2024 - April 2024
- Participated in **Xiaomi Ode2Code 3.0** : organised by Xiaomi India in July 2023
